## Uncovering the Story Behind the Numbers *Litigation. Fraud. Alternative Dispute Resolution.*

As financial investigations and litigation become increasingly complex, counsel and its clients often need experts who can analyze intricate financial data, weave it into a cohesive whole and, if necessary, articulate their findings to a trier of fact.

Crowe Horwath LLP's forensic experts use insight and broad technical and industry knowledge to cut beneath the surface and help to uncover the real story behind the numbers. In the event of litigation, Crowe's professionals tell the story to the judge, jury, or arbitrator through clear, convincing expert testimony and compelling visual presentations.

Our clients consistently turn to Crowe for the following reasons:

- We have experience with the legal and bankruptcy processes and their respective demands, and know how to correctly gather information and testify effectively on our findings;
- We offer a comprehensive solution to help you reduce your company's exposure to fraud and other business issues; and
- We are recognized and respected as neutral arbitrators and mediators in alternative dispute resolution.

Whether you are addressing [litigation](#) issues, investigating [fraud](#), assisting a company through an [insolvency](#) situation, or pursuing [alternative dispute resolution](#), Crowe's [multidisciplinary team](#) has the required [credentials](#) to provide the support you need to succeed.
